Cloud Easy Smart Outdoor PoE Switch

WI-PCES206-O | WI-PCES210G-O

Overview

Wi-Tek Cloud Easy Smart Outdoor PoE Switch is designed to address the unique challenges of variable weather environments. Wi-Tek Outdoor PoE Switch, a cost-effective, all-in-one solution for your outdoor CCTV systems, designed with 4/8 PoE output PoE ports, the IP camera, and other PoE-powered devices can be powered up and transmit data by one Ethernet cable, which shortens the construction period and cost.

This series of switches supports cloud management where you can remotely manage your devices in the cloud platform/mobile app, providing you with intelligent, simple, and easy-to-maintain management measures. Users can view the network status, modify the configuration, and troubleshoot at home anytime.

Features

Wi-Tek Cloud Management

ONVIF cameras and Wi-Tek cloud management devices can be remotely managed through the Wi-Tek cloud platform/mobile APP, making CCTV network projects truly intelligent and easy to maintain. You can easily access and manage your cameras through your phone or computer anytime, anywhere.

(Note: The Eweb channel tunnel can be created only when the easy smart switch is linked with the other type of Wi-Tek cloud management device, such as cloud L2, L3 management switch, gateway, wireless AP, etc.)

IP65 Waterproof and Dustproof Enclosure Design

It adopts a high-weather-resistant shell and provides dustproof and waterproof capabilities. It can work normally in extreme environments as low as -30℃ and as high as 60℃, without fear of wind, sun, rain, and snow.

Independent Intelligent DIP, Easy to Switch Functional Modes

DIP switch provides Extend mode(250m Long Range), VLAN mode and PD Alive mode. No configuration is needed, quick provision and more flexible project adaptation.
